Her Grand dam, HCR Warpaints Glow (106.75" th) has proven over and over to be one of the best horn producing lines in our program. The added influence of Texana Van Horne, Top Caliber and Clear Win give this youngster potential to launch any program! She spent the breeding season with HCR Samson for a colorful 2024 calf. We LOVE cows with big total horn measurements! This young heifer is beautifully hig-horned, but NOT high
