New picture coming soon (you will be impressed). South Dakota winters can be brutal. It took a toll on this girls right horn tip, but her horn genetics were kept warm and secure! Embryo heifer by MC Hangin Tuff (100.25' tt) and EZTs Wallflower (104.5" th) provide the credentials to make this girl an heir to greatness!! If her right blinker bothers you, we will keep her and enjoy the powerful calves she plans to produce!
